

sic

Sunburn In Cyprus, based in Goettingen (Germany), was founded in 1998 as an avenue to produce electronic music outside of members regular musical work. Beside remixes for different artists, Sunburn In Cyprus focuses on many different genres such as triphop, house, lounge/chill-out, dance & mixed with catchy pop vocals and jazz influences. Their fanbase includes now listeners all over the world, especially in Australia, Germany, UK, Canada and the USA. Originally just a studio/remix project with several/changing members, Sunburn In Cyprus also present these songs, tracks from the CDs "Voodoo on demand", "Traffic Jam", "Raw & Mixed" and the current album "Feng shui rescue" as well as brandnew unreleased tracks live on stage since early 2005. Please check also the homepage at <http://www.sunburnincyprus.de> for music and up-to-date information
